Quick Sheet: Reports

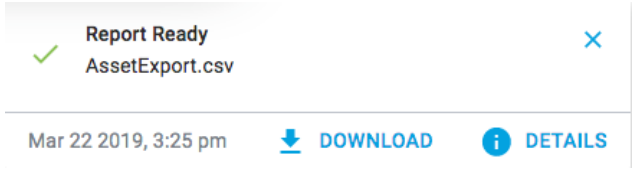
This Quick Sheet documents the process for generating reports in Wonderland.

1. Select at least one filter using the Filters on the right-hand side of the site.

2. When filters are applied, this menu appears at the bottom of the screen:

3. Click EXTRACT.

4. When the report is ready, a pop up will appear in the lower right corner.



A notification will also appear in your notifications center at the upper right.

5. Click DOWNLOAD in either location, and a CSV of your selected assets will be downloaded to your computer.

6. If the Reports button is not visible, your account may not have permissions to use this feature. If you believe you should have access, please reach out to Wonderland Support using the contact information at https://wonderland.studio.disney.com/help.
